Dispense as Written (DAW) Codes

(See Narrow Therapeutic Index Drugs – DAW 7 located in this section)

Dispensing Fee

The dispensing fee is \$3.91 for branded products and \$4.91 for generic products. Dispensing fee for beneficiaries residing in a Long Term Care facility is \$3.91 for all drugs.

Drug Limits

Beneficiaries are entitled to five prescriptions per month, of which, two may be brand products. *Long term care residents are exempt from this limit.*

Beneficiaries under the age of 21 may receive more than the prescription limit, if medically necessary, through expanded EPSDT services when prior authorization is requested by the prescriber from HID.

Dual Eligibles

Dual eligibles are those beneficiaries who are eligible under both Medicare and Medicaid and receive primary drug coverage under Medicare Part D. Medicare Part D payment is considered payment in full and should not be submitted to Medicaid.

For drugs not covered by Medicare Part D, Medicaid offers limited coverage of some drugs.

Durable Medical Equipment (DME)/Medical Supplies

DOM does not process any DME/medical supply claims via POS. Pharmacies may be DME providers; however, in order for DOM to reimburse for DME/medical supplies, the pharmacy must enroll as a MS Medicaid DME provider. All DME items and/or medical supplies must be filed on a CMS-1500 claim form. See the CMS 1500 section of this manual for further instructions.

Fraud

If you suspect a case of fraud, please call MS Medicaid Program of Integrity 1-800-880-5920 or 601-576-4162 or via the web at <http://www.medicaid.ms.gov/PI/FraudAbuse/WebFormFraudAbuse.aspx>.

Health Information Designs (HID)

DOM contracts with Health Information Designs, Inc. (HID) to provide prior authorization services. Through its offices in the Jackson area, HID operates a call center and employs a clinical staff of pharmacists and nurses to review and process prior authorization requests from Mississippi Medicaid providers. For a listing of drugs requiring prior authorization, refer to www.hidmsmedicaid.com.

Health Information Portability and Accountability Act (HIPAA)

All POS transactions submitted to MS Division of Medicaid must be HIPAA compliant. Data must now be encoded to comply with NCPDP 5.1 format.

Hospice Drug Coverage

Medicaid beneficiaries enrolled in Hospice Services are covered under a per diem rate which covers all services for that beneficiary. For those beneficiaries receiving Medicaid Hospice Services, all palliative therapy, or drugs used to treat beneficiary's terminal illness, is to be billed to the Hospice provider. Medicaid will only pay for drugs used for an indication not directly related to the beneficiary's terminal illness that are within the applicable Medicaid prescription service limits. Since plans of care are specific for beneficiaries, it is the responsibility of the dispensing pharmacy to bill the Hospice Provider or Medicaid appropriately. The dispensing pharmacy must retain documentation regarding Hospice Service drug coverage for beneficiaries which is easily retrievable for auditing purposes.

All Medicaid policies and procedures such as prior authorization requirements and limits are still applicable. Pharmacy providers must maintain the explanation of benefits (EOB) from other insurance companies (or payers, i.e., Hospice). These records must be available to Medicaid upon request.

How to Bill a Non-Covered Hospice Drug

Pharmacy may override electronically by entering a '3' in the 'Other Coverage Code' field. It is the responsibility of the pharmacy to have documentation and proof that Hospice was billed first and that they received a denial of 'drug not covered' in case of an audit.

When Hospice Is No Longer In Effect

Hospice Providers must submit a disenrollment form (DOM-1166) to ACS, Medicaid's Fiscal Agent, for Medicaid beneficiaries who are no longer receiving care by that Hospice Provider. Disenrollment forms may be found at <http://www.medicaid.ms.gov>, Provider Manual under Hospice, and should be mailed to the Fiscal Agent at the address noted on top of the form. Forms may also be faxed to ACS's Provider Beneficiary Relations at 601-206-3015.

For additional information regarding Hospice, refer to the Hospice Provider Manual, at

<http://www.medicaid.ms.gov>, Provider Manuals, and select Hospice.

K-Baby

K-babies are newborns born to a Medicaid beneficiary without an assigned Medicaid ID. When billing for prescription drugs for a K-baby, use the mother's Medicaid ID number followed by the letter 'K' with the baby's name, date of birth and gender.

Lock-In

Beneficiaries can be locked into a specific pharmacy provider and/or prescriber(s) which means they can only receive their prescriptions from an assigned provider. If they attempt to have their prescriptions written or filled at a provider other than the one assigned, their claims will deny. MS Bureau of Program Integrity administers this program and can be reached at 1-800-880-5920 or 601-576-4162.

Long-Term Care (LTC)

Long-term care beneficiaries are exempt from the prescription drug limits. The dispensing fee for all drugs dispensed to a patient in LTC is \$3.91. Drugs in tamper-resistant packaging that were prescribed for a resident in a LTC facility, but never administered, can be returned to the pharmacy and should not be billed to Medicaid in accordance with Mississippi State Board of Pharmacy laws.

Lost/Stolen Medications

If a beneficiary's medication is lost or stolen, DOM allows the beneficiary to have a prescription refilled in some situations with an override from HID if service limits have not been exhausted. If you have questions, contact HID.

Max Daily Dose

The max daily dose sets a DUR edit for High Dose, if the daily dose exceeds the max daily dose on the drug file. If a beneficiary's medical condition requires a higher dose, DOM allows the beneficiary to have the higher unit dose with prior approval, which is handled by HID.

Medicare Part B

Beneficiaries with Medicare Part B services are allowed minimal prescription drug coverage. DME pharmacy providers may submit Medicare crossover claims to Medicaid using a CMS-1500 claim form. Refer to the CMS-1500 section of the Billing Manual for further instructions.

DOM does not process any Medicare Part B claims via POS.

Medicare Part D

Medicare Part D is the portion of Medicare that covers prescription drugs. Any Medicaid beneficiary eligible for Medicare Part A and B is eligible for Medicare Part D and **MUST** enroll for coverage. Medicare Part D must be billed before Medicaid in all circumstances. Medicare Part D payment is considered payment in full and should not be submitted to Medicaid for additional payment. Remember Medicaid is always the payor of last resort.

For drugs not covered by Medicare Part D, Medicaid offers limited coverage of some drugs.

Narrow Therapeutic Index Drugs – DAW 7

DOM recognizes some drugs as narrow therapeutic index (NTI) drugs in which the generic mandate does not apply. Claims must be submitted with a DAW equal to “7”. MS Medicaid considers the following five drugs as NTI drugs:

- Coumadin
- Dilantin
- Lanoxin
- Synthroid
- Tegretol

The prescriber must indicate one of the following on a written or faxed prescription in order for the pharmacist to submit the DAW 7:

- Brand name medically necessary **or**
- Dispense as written **or**
- Do not substitute.

Over the Counter (OTC) Drug Coverage

Medicaid covers certain over-the-counter (OTC) drugs pursuant to a written, faxed or verbal order prescription. Covered OTC products must be manufactured by pharmaceutical companies who are participating in the Federal Drug Rebate Program. OTC drug prescriptions are included in the monthly drug benefit limit. DOM may not cover ALL available package sizes.

A current listing of the covered OTC products can be found at

<http://www.medicaid.ms.gov/Documents/Pharmacy/OtcListEff01012009.pdf> click on the “OTC List”.

Pharmacy Disease Management

Pharmacy Disease Management services are those provided by specially credentialed pharmacists for Medicaid beneficiaries with specific chronic disease states of diabetes, asthma, hyperlipidemia, anticoagulation therapy, or other disease states as defined by the Mississippi State Board of Pharmacy. The pharmacist providing DM services must have an individual MS Medicaid Provider Number and

NPI. Claims filed for these services must be submitted on a CMS 1500 form and not billed through POS.

- DUR overrides do not stop the early refill edits from posting.
- Early refill requests are handled by HID.
